1. Nature of operations and going concern

BlockMint Technologies Inc. (formerly SMC Ventures Inc. ("SMC")) or the "Company" is a publicly traded company whose shares are listed on the TSX-V under the trading symbol BKMT. BlockMint (Canada) Technologies Inc. (formerly BlockMint Technologies Inc.) ("BlockMint-Canada"), a wholly owned subsidiary of the Company, was incorporated on December 22, 2017 pursuant to the British Columbia Business Corporations Act. BlockMint-Canada and its subsidiary, BlockMint (USA) Technologies Inc. ("BlockMint-USA") are in the business of developing distributed systems and networks that enable a more decentralized deployment of blockchain based applications such as cryptocurrency mining. BlockMint-USA was incorporated under the laws of the State of Delaware on March 6, 2018.

On February 19, 2019, the Company completed a triangular amalgamation whereby BlockMint-Canada shares were exchanged for SMC shares on the basis of 1.33 post-consolidated SMC share for each one (1) BlockMint-Canada share (the "Amalgamation") (see note 4). The Amalgamation was accounted for as a reverse takeover ("RTO") whereby BlockMint-Canada was identified as the acquirer for accounting purposes and the resulting unaudited condensed consolidated interim financial statements are presented as a continuance of BlockMint-Canada and the comparative figures presented in the unaudited condensed consolidated interim financial statements after the RTO are those of BlockMint-Canada.

The Company's registered office address is located at 29th Floor, 595 Burrard Street, Vancouver, British Columbia, V7X 1J5.

Going concern

The Company does not generate material revenue from operations. The Company incurred a net loss in the current period of \$4,084,617 and had an accumulated deficit of \$5,911,920 at September 30, 2019. These conditions indicate a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. The Company does have working capital of \$2,990,152 at September 30, 2019.

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. Accordingly they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those presented in these unaudited condensed consolidated interim financial statements.

2. Basis of presentation

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS's issued and outstanding as of November 28, 2019, the date the Board of Directors approved the statements. Except as disclosed in note 3, the same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2018. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the period ending December 31, 2019 could result in restatement of these unaudited condensed consolidated interim financial statements.

3. Significant accounting policies

Changes in accounting policies

New accounting policy adopted

IFRIC Interpretation 23 Uncertainty over Income Tax Treatments

The Interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The Interpretation is applicable for annual periods beginning on or after January 1, 2019. At January 1, 2019, the Company adopted this standard and there was no material impact on the Company's unaudited condensed consolidated interim financial statements.

New standards not yet adopted and interpretations issued but not yet effective

There are no other relevant IFRS's or IFRS interpretations that are not yet effective that would be expected to have a material impact on the Company.

4. Arrangement agreement

On July 10, 2018, BlockMint-Canada, BlockMint-USA, SMC and 1166066 B.C. Ltd. ("SMC Subco"), a wholly-owned subsidiary of SMC, entered into an Arrangement Agreement whereby BlockMint-Canada agreed to amalgamate with SMC Subco, which would result in BlockMint-Canada and BlockMint-USA becoming wholly-owned subsidiaries of SMC. The Arrangement Agreement was amended on September 28, 2018.

On February 19, 2019, the Company closed its reverse takeover acquisition of BlockMint-Canada, whereby:

- ◆ SMC consolidated its 18,708,678 common shares on a two for one basis resulting in 9,354,387 post consolidation shares outstanding;
- ◆ BlockMint Technologies Inc. changed its name to Blockmint (Canada) Technologies Inc.;
- ◆ The Company issued 34,914,681 post-consolidation shares to the shareholders of BlockMint-Canada (1.33 post consolidation shares of the Company for each share of BlockMint-Canada);
- ◆ The Company issued 6,650,000 performance warrants in replacement of the 5,000,000 performance warrants outstanding in the capital of BlockMint-Canada and 152,498 finder's fee warrants in replacement of the 114,660 finder's fee warrants outstanding in the capital of BlockMint-Canada, each share purchase warrant entitling the holder to acquire one post consolidation share of the Company at the exercise price in the underlying BlockMint-Canada warrant.

In accordance with IFRS 3, Business Combinations, the substance of the transaction is a reverse takeover of a non-operating company. The transaction does not constitute a business combination as SMC does not meet the definition of a business under the standard. As a result, the transaction is accounted for as a capital transaction with BlockMint-Canada being identified as the acquirer and the equity consideration being measured at fair value. The resulting unaudited condensed consolidated interim statement of financial position is presented as a continuance of BlockMint-Canada and comparative figures presented in the unaudited condensed consolidated interim financial statements after the reverse takeover are those of BlockMint-Canada.

4. Arrangement agreement (continued)

IFRS 2, Share-based Payment, applies to transactions where an entity grants equity instruments and cannot identify specifically some or all of the goods or services received in return. Because BlockMint-Canada issued shares with a value in excess of the assets received, the difference is recognized in profit or loss as a transaction cost. The amount assigned to the transaction cost of \$3,458,765 is the difference between the fair value of the consideration and the net identifiable assets of SMC acquired by BlockMint-Canada.

The purchase price is recorded as the cost to acquire the share capital at the fair value at the time of the transaction. The excess of the amount paid over the fair value of the net assets acquired is charged to profit or loss as a transaction cost. Accordingly, share capital increased by \$3,835,279, being the fair value of the common shares issued for the acquisition.

Consideration - Shares: SMC shareholders	\$ 3,835,279
Total consideration	\$ 3,835,279

Cash	\$ 408,219
Other receivables and prepaid expenses	6,657
Accounts payable and accrued liabilities	(38,362)

5. Digital currency

Digital currency are measured at fair value using the quoted price on www.coinmarketcap.com. Management considers this fair value to be a Level 2 input under IFRS 13 *Fair Value Measurement* fair value hierarchy as the price on this source represents an average of quoted prices on multiple digital currency exchanges. The Company is relying on the data available at www.coinmarketcap.com to be an accurate representation of the closing price for the digital currency.

As at September 30, 2019, the Company's digital currency consisted of Monero with a fair value of \$679 (December 31, 2018 - \$552). Digital currencies are recorded at their fair value on the date that they were received as revenues and are revalued to their current market value at each reporting date based on the closing price obtained from www.coinmarketcap.com.
